Morning stand-ups

07/04/21

Hasan

- Home page + album page + artist page. Wire frame
- Finish off look for front end
- No blockers

Tom

- Service integration tests and a little on unit tests
- Controller integration tests
- No blockers

Jordan

- Home page + album page + css.
- Finish off front end, aid the back end
- No blockers

Michael

- Started unit tested controller classes
- Service unit tests – remaining controller unit tests
- Some errors with playlist tests

08/04/21

Hasan

- Completed draft of front end, started on JS
- Continue with JS templates
- No blockers

Tom

- Controller integration tests and trying to fix controller unit tests
- Controller unit tests + integration tests
- Issues with unit tests and integration tests proving difficult to fix

Jordan

- Finished web pages with Hasan, helped web pages
- Aid Tom + Michael or do some JS
- No blockers

Michael

- Unit tested controller classes
- remaining controller unit tests
- Some errors with playlist tests

10/04/21

Hasan

- Good progress on JS
- Continue with JS templates
- No blockers

Tom

- Fix recursion issues and controller integration tests
- Controller unit tests + integration tests
- Issues with unit tests and integration tests still proving difficult to fix

Jordan

- Aided JS and testing
- Help Tom fix integration tests + recursion issues
- No blockers

Michael

- Unit tested controller classes, wrote UML
- Remaining unit tests
- No Blockers

11/04/21

Hasan

- Finishing JS Templates
- Integrate JS with backend
- No blockers

Tom

- Fix controller integration tests (Failed to do so)
- Controller integration tests + recursion issues
- Integration tests for the controllers

Jordan

- Bit of front end, helped with tests
- Support issues that need help
- Controller tests still hard

Michael

- Fixing merge conflicts
- Finish off front end
- No Blockers

12/04/21

Hasan

- Integrating JS with backend
- Final JS touches
- No blockers

Tom

- Fixed recursion errors
- Start on new project requirements – test plan and collaborative artists filter
- Many to many relationships with hibernate could prove to be difficult

Jordan

- Supported those that needed help – controller integration and JS
- Started making JMeter tests
- No blockers

Michael

- Finished front end with Hasan
- Started looking into new client requirements
- Hibernate many to many

13/04/21

Hasan

- Finishing JS Templates
- Final JS touches
- No blockers

Tom

- Tried to implement a artists_albums table but it doesn't get populated
- Look into developing a test plan
- Unsure how to fix hibernate issues as of now

Jordan

- Started with JMeter testing
- Continue with JMeter testing
- No Blockers

Michael

- Helped Tom trying to implement new client requirements
- Looking into Selenium testing and making a start with cucumber
- No Blockers

14/04/21

Hasan

- JavaScript completed
- Selenium testing
- No blockers

Tom

- Tried to resolve hibernate issues and started a test plan
- Try and finish test plan as a priority and look at hibernate issues
- Unsure how to fix hibernate bug

Jordan

- Jmeter testing
- Continuing with Jmeter testing – should be complete by the end of the day
- Time required to run each test

Michael

- Laid out selenium tests with cucumber
- Do Selenium testing
- No Blockers

15/04/21

Hasan

- Troubleshooting Selenium - finally got it working with cucumber
- Finish up JavaScript quickly then carry on with selenium
- No blockers

Tom

- Fixed join table and controller integration tests
- Finish fixing CI tests and implement collab artists filter
- No Blockers

Jordan

- Jmeter testing, getting HTML and .csv reports sorted
- Continuing with Jmeter testing – compiling reports
- Time required to run each test

Michael

- Troubleshooting Selenium with cucumber, succeeded eventually
- Carry on with selenium – testing user inputs
- No Blockers
